CAREER DISCOVERY ADVENTURE – GAME INSTRUCTIONS

 **TIME: 20–30 MINUTES**

HOW TO PLAY

1. Each player picks a token and places it on Space #1 – Start Here.
2. Players take turns rolling one 6-sided number cube.
3. Move forward the number of spaces shown on the cube.
4. Follow the prompt or action listed in the space.
5. First player to land exactly on Space #20 wins!
6. (If you roll too high, wait and try again on your next turn.)

Materials Needed

- 1 number cube
- Tokens for each player (coins, buttons, etc.)
- Optional: Pen & paper or digital notes for saved careers

INTEGRATION IDEAS FOR SKILLPOINTE CAREER QUEST IN THE CLASSROOM

1. Career Exploration Unit (Multi-Day Lesson Plan)

- Objective: Help students understand their personality traits, career matches, and available training.

Approach:

- Day 1: Introduce SkillPointe & take the quiz (BLUE ZONE).
- Day 2: Explore career matches & use the AI career specialist (PURPLE ZONE).
- Day 3: Investigate multiple industries & compare options (GREEN ZONE).
- Day 4: Research local training pathways (YELLOW ZONE).
- Day 5: Present career plans (RED ZONE).

Assessment: Students submit a short reflection or presentation on their chosen career path and why.

2. Collaborative Board Game Sessions (Team Play)

- Class splits into groups (2–4 students).
- Each team advances around the board together, making decisions as a group.
- When a team lands on a task space (e.g., “Ask the AI a Question”), they must complete it to move forward.
- Debrief: After the game, teams share the careers and training they discovered.
- Benefit: Builds teamwork, decision-making, and exposure to multiple career pathways.

3. Cross-Curricular Connections

- **Math:** Have students calculate average salaries, compare job outlook data, or cost of training programs.
- **English/Language Arts:** Students write cover letters or short essays on why they're interested in their chosen career.
- **Technology:** Practice researching and saving digital resources, bookmarking programs, or using AI ethically.
- **Social Studies:** Discuss how different careers impact communities, industries, or the economy.

4. Individual Research Projects

- Assign the board game as a guided independent project.
- Students play through at their own pace (in class or as homework).
- Require deliverables such as:
 - Personality trait summary
 - Career match list
 - Training program comparison
 - Career timeline draft
- Useful for blended or flipped classrooms.

5. Gamified Competitions

- Create leaderboards or offer badges/prizes for milestones, e.g.:
 - First to find a training program in your state
 - Most unique career discovered
 - Best AI career question asked
- Use the Monopoly-style board as the framework, but add classroom challenges like trivia or bonus rolls

6. Capstone Presentation or Career Fair

- Once all students finish the game, hold a mini career fair:
 - Students present their top career path and training plan.
 - Optionally create posters, slides, or tri-fold displays.
 - Invite parents, other classes, or local professionals.

7. Advising & Counseling Support

- Counselors or advisors can use the game with small groups or one-on-one sessions.
- It becomes an engaging advising tool instead of a typical meeting, and helps students open up about interests and hesitations.

8. Special Education & Differentiation

- Simplify: Use fewer spaces, chunked instructions, or visuals for accessibility.
- Extend: Advanced students can research salary comparisons, regional demand, or create mini budgets based on their chosen training paths.
